JAMERSON GONCALO DA SILVA

Cloud & ICT Engineer Student — Seeking an Internship (LIA) Cloud/IT Infrastructure (Spring 2027)

Stockholm, Sverige | 072-198 10 78 | sambajam@gmail.com | *linkedin.com/in/jamerson-goncalo* | *github.com/sambajam*

PROFESSIONAL PROFILE

Cloud & ICT Engineer student with an international background and several years of experience in teaching, communication, and collaboration. Currently studying Cloud & ICT Engineering at Lernia Higher Vocational Education in Stockholm, focusing on cloud services (IaaS, PaaS, SaaS), Microsoft Azure, IT infrastructure, and cloud security, combined with a business perspective on cost efficiency and optimization.
Through personal projects and hands-on lab assignments, I have developed practical skills in server administration, virtualization, Docker, Active Directory, and network infrastructure, providing a solid foundation for working with cloud solutions. I am a fast learner who enjoys solving technical problems and continuously developing new skills. I am now seeking an internship (LIA) where I can apply my knowledge in practice, gain experience in a professional IT environment, and contribute to a team.

TECHNICAL SKILLS

Cloud Computing: Microsoft Azure, IaaS, PaaS, SaaS, Office 365, cloud security, server virtualization
Operating Systems: Linux (Ubuntu), Windows 10/11, Windows Server
Networking: TCP/IP, DNS, DHCP, routing, NAT, VLANs, SSH
IT Security: Linux hardening, network security, firewalls, Active Directory, Group Policy, secure user account management
Virtualization & Containers: VMware, VirtualBox, Docker, Docker Compose, Hyper-V
Programming & Scripting: Python, Bash, PowerShell
Version Control: Git, GitHub

TECHNICAL PROJECTS

Enterprise Homelab — Virtual Enterprise Infrastructure:

- Designed and built a virtual enterprise network simulating a modern IT infrastructure with multiple interconnected servers and client machines.
- Configured Active Directory, DNS, and DHCP for centralized user and resource management.
- Implemented secure SSH access and hardened server configurations on Ubuntu Server and Windows Server.

Technologies: Ubuntu Server, Windows Server, Docker, Active Directory, DNS/DHCP, SSH, virtual networking

Linux Server Administration:

- Installed, configured, and administered Linux servers, including user and group management and file permissions.
- Managed services, logs, and backup routines, and performed regular system updates to improve security and stability.

Technologies: Linux, Bash, SSH

Docker Infrastructure:

- Built containerized environments using Docker and Docker Compose to run multi-service applications.
- Configured container networking and persistent volumes and practiced application deployment.

Technologies: Docker, Docker Compose

Windows Server Lab:

- Configured Active Directory, DNS, and DHCP in a Windows Server environment.
- Managed user accounts, Group Policy, and client computers in a domain environment.

Technologies: Windows Server, Active Directory, Group Policy

ARBETSLIVSERFARENHET PROFESSIONAL EXPERIENCE

Teacher — Brazil

- Taught history, geography, and literacy to children, young people, and adults.
- Developed strong communication, planning, leadership, conflict resolution, and teamwork skills that are directly transferable to working in IT teams.

Portuguese Language Teacher — Church of Sweden, Sweden
- Taught Portuguese in an international and multicultural environment.

Election Official — City of Stockholm, Sweden
- Assisted with election administration and voting procedures during the European Parliament elections.

Volunteer — Urkult Festival, Sweden
- Collaborated with international teams during a large-scale cultural event.

EDUCATION

Cloud & ICT Engineer (Higher Vocational Education)
Lernia Higher Vocational Education — Stockholm, Sweden
August 2025 – Present
Expected graduation: June 2027 | 400 Swedish Higher Vocational Education credits (YH), full-time
Focus areas: Cloud services (IaaS/PaaS/SaaS), Microsoft Azure, IT infrastructure, cloud security, Office 365, server virtualization, and the business aspects of cloud computing, including cost, efficiency, and innovation.

Bachelor's Degree in History
Universidade de Pernambuco, Brazil

ULV — Further Education for Internationally Trained Teachers
Sweden

LANGUAGES

Portuguese: Native
Swedish: Fluent
English: Good proficiency
Spanish: Good proficiency

PERPERSONAL STRENGTHS

Responsible · Organized · Curious · Analytical · Solution-oriented · Team player · Strong communication skills · Fast learner

ADDITIONAL INFORMATION

- Seeking an internship (LIA) in Cloud Computing / IT Infrastructure for Spring 2027.
- Strong interest in technology and a high level of motivation to learn new tools and technologies.
- Practical experience gained through personal projects and hands-on lab assignments, as outlined in the Technical Projects section.
- References available upon request.
